Planning your future

THE NEXT STEPS GUIDE FOR YEAR 11

PLANNING YOUR FUTURE

The next step after Year 11 is an important time when making choices for your future career.

Before planning, it is necessary to find out about all the options available. All young people **must** be in education or an apprenticeship until they reach 18. The options open to you will depend on your interests, skills and abilities including the grades you achieve at GCSE. At the end of Year 11 you have the option of taking one of the following routes:

Sixth Forms

(school based)

- For age 16 - 19
- Mostly offer level 3 (A Level/BTEC National) courses to those who gain GCSE grades 9 - 4 (including Maths and English).

Sixth Form Colleges

(not attached to a school)

- For age 16 - 19
- Courses typically offered from level 2 (GCSE) to level 3 (A Level/ BTEC National).

Specialist Colleges

- Offer courses in a specific field e.g. Engineering, Performing Arts, Music etc.
- Course levels offered depend on the individual institution.

Colleges

(Further Education)

- For all ages, offering a wide range of practical, work-related and some academic courses at all levels.

Apprenticeships

- On-the-job learning contracts for age 16 and upwards
- Involves working and studying for a qualification (e.g. Catering - four days in job, one day at college)
- Typically leads to a permanent job.

Traineeships

- Practical programmes for those aged 16 and upwards who are not quite ready to start an apprenticeship but want to gain the necessary skills to progress
- For those with GCSEs grade 3 and below.

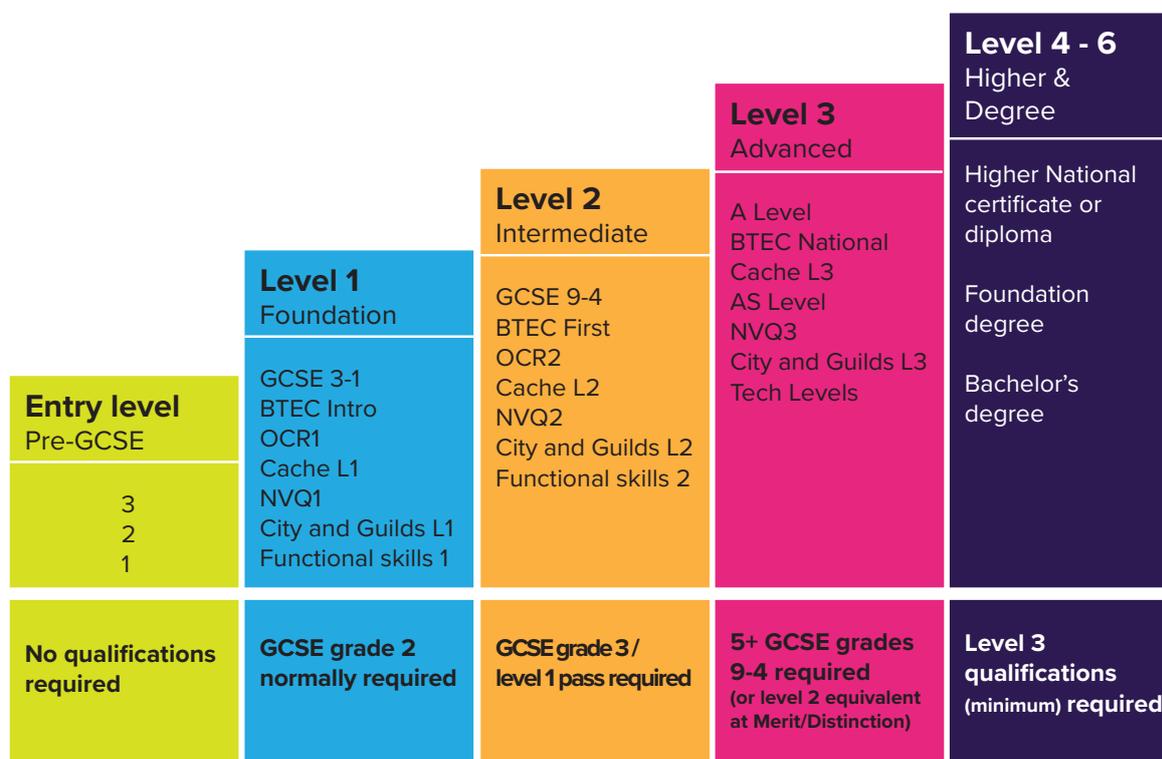

Course offer / More information	Apply	Start
<p>Sixth Forms (school based) A Levels or BTEC level 3 qualifications over two years. Majority of students progress to university.</p>	October - January	September
<p>Sixth Form Colleges A Levels or BTEC level 3 qualifications over two years or re-take GCSEs and OCR/BTEC level 2 over a year (and then progress to level 3).</p>	October - January	September
<p>Specialist Colleges A Levels or BTEC level 3 qualifications over two years. Depending on the subject, Tech Levels may be offered which include work experience.</p>	Check individual college closing date for when to apply	
<p>Colleges (Further Education) All levels from pre-entry level to level 1, 2 and 3 (and often levels 4, 5 and 6). Courses include - GCSE retakes, Functional skills, OCR, City and Guilds and BTEC courses. (A few colleges offer A levels). Depending on the subject, Tech Levels may be offered which include work experience.</p>	October onwards	September
<p>Apprenticeships Apprenticeships are paid and combine working for an employer with study for a qualification. They are an ideal option if you have a clear idea of the career path you want to follow, providing you with practical on-the-job training and classroom-based instruction. Apprenticeship levels are:</p> <ul style="list-style-type: none"> • Intermediate = GCSE/NVQ2 • Advanced = NVQ3/ BTEC level 3/A Level • Higher = NVQ4 Higher National certificate/L5 diploma or Foundation degree • Degree = Bachelor's degree or Master's degree. <p>Most training is carried out on-the-job at the employer's premises with additional study provided by colleges or specialist training providers. They can last from one to five years depending on level and qualification.</p> <p>www.gov.uk/apply-apprenticeship www.lbbd.gov.uk/apprenticeships</p>	February onwards	Start from late July onwards
<p>Traineeships Traineeships are unpaid and provide work preparation, experience and English/Maths qualifications (up to level 2 if needed). They develop skills and confidence required to secure a job or apprenticeship and last up to six months. www.gov.uk/guidance/traineeships</p>	End of term - July	Start from late July onwards

MAIN OPTIONS AFTER YEAR 11

Qualifications go up in steps or stages, the higher the number, the more difficult they are.

If a person achieves 5 GCSE passes at grades 9 - 4 (including English and Maths) they have reached level 2 and are ready to progress to the next level - which is level 3.

Those who gain less than this may be required to do more studies at level 2 or in some cases begin at level 1 or Entry level and build from there.

Entry level qualification

Gives basic skills and knowledge, they help students to use what they have learned in everyday situations and are not normally aimed towards a specific occupation. No qualifications required.

Level 1 - Foundation

Often work related (vocational), this level ensures that students gain skills and basic knowledge that they can apply under guidance. Examples of courses are Catering, IT and Construction. GCSE grade 2 is normally required. (Some course areas e.g. Motor mechanics will require students to start at level 1 if they have not studied this before).

Level 2 - Intermediate

Students at this level gain a good understanding and knowledge of a subject and are able to do a variety of tasks with some guidance or supervision. This is suitable for many job roles. Successful completion of level 2 courses in vocational subjects can lead to level 3. Students who achieve GCSE grade 3 (or level 1 pass) can take a one-year course such as the BTEC extended level 2 or OCR diploma level 2 along with GCSE Maths and English re-sits or Functional skills. (To progress to level 3 however, a merit or distinction is normally required).

Level 3 - Advanced

Students at this level are able gain or put into practice a range of skills, knowledge and understanding at a detailed level. Courses normally take two years. Five or more GCSEs at grade 9-4 including English language and Maths are typically required (or level 2 as previously mentioned). Most relevant for those who plan to go to university (specific subjects may be needed) or work independently (or in some instances supervise and train others in their field of work).

Level 4-6 - Higher and Degree

These levels are typically developed through university study and correspond to the first, second and third years of a degree. Level 3 qualifications required.

QUALIFICATION TYPES SUMMARY

Here is a summary of some of the qualifications you are likely to come across after Year 11.

A Levels (General Certification of Education Advanced Level)

- Offered in a range of subjects (academic/non work-related), typically assessed by exams at the end of the second year. Most traditional route to university.
- Students will normally choose 3 A Levels to study and sometimes, in addition, a one-year course called AS (advanced subsidiary) or an Extended Project Qualification (EPQ).
- Tend to be offered at Sixth Forms and Sixth Form College and may be studied alongside BTEC Level 3 qualifications. Graded from A*-E.

BTEC (Business and Technology Education Council) Certificates/Diplomas

- These qualifications are based around an occupational area eg; Health and Social Care, IT, Business and combine theory with practical projects.
Level 1 (Introductory), Level 2 (First) and Level 3 (National or Subsidiary).
Six units of a BTEC Level 3 is equivalent to an A Level. BTECs are often 12 or 18 units (extended diploma) in size and may be studied alongside an A Level.
- Assessment is mainly through coursework but can include an exam. At Level 3 they can lead to university studies or employment and are graded Distinction, Merit or Pass.
- Offered at Sixth Forms and Further Education Colleges.

NVQ (National Vocational Qualifications)

- These are work-based qualifications and involve mainly practical training and assessment eg: Motor Vehicle maintenance, Construction and Catering. Level 1, 2 and 3 (and higher).
- They are well recognised by employers and are mostly undertaken via apprenticeships. NVQ Level 2 must have been studied previously in order to progress to Level 3. All elements must be passed to gain a qualification.

City and Guilds

- Mostly work-related qualifications that involve mainly practical learning and assessment e.g. Motor Vehicle maintenance, Construction and Catering. Entry level, Level 1, 2, 3 (and higher).
- Well recognised by employers and can be undertaken via apprenticeships as well as in college. Level 2 must have been studied previously in order to progress to Level 3. Grading system is specific to the subject so will need to be checked on an individual basis.

Tech Levels (T Levels)

- These are new courses and are equivalent to 3 A Levels. These two-year courses have been developed in collaboration with employers and businesses so that the content meets the needs of industry and prepares students for work.
- Tech Levels will offer students a mixture of classroom learning and on-the-job experience during an industry placement of at least 315 hours (approximately 45 days). They will provide the knowledge and experience needed to open the door into skilled employment, further study or a higher apprenticeship and are most likely to be offered by colleges.

ACTION I NEED TO TAKE

Use this timeline to help you plan your steps for Year 11 and after.

SEP

September to October

- Find out about your options after Year 11
- If you intend to go to university, check www.ucas.com to ensure you have chosen the subjects you need for your future course/career
- Find out from teachers what your predicted grades are to give you an idea of what level courses to aim for
- Look at Sixth form/college prospectuses or courses online
- Check closing dates for applications - do not miss the deadline for where you want to go
- Attend open days
- Apply to Sixth form/college - remember to make at least one back-up application.

OCT

NOV

November to February

- Attend careers events - Visit Skills London at the Excel Centre (Docklands) on **Friday 27** or **Saturday 28 November 2020**. More information visit www.skillslondon.co.uk/
- Find out from teachers what your predicted grades are to give you an idea of what level courses to aim and apply for
- Apply to Sixth form/college. Some colleges have their closing dates now - make sure you have sent off your application forms. (Remember back up plans too)
- Attend open days
- Find out about financial support that might be available in full time education www.gov.uk/1619-bursary-fund
- Start researching apprenticeships www.gov.uk/apply-apprenticeship
- Draft your CV and accompanying letter to prepare you for future applications
- Your school may have mock exams. Talk to your teacher about expected grades
- Attend interviews offered for Sixth form/college form places. If you do not hear anything - contact them.

DEC

JAN

FEB

MAR

March to April

- If you have not applied for college - send your application form off now!
- Research apprenticeships. Register on www.gov.uk/apply-apprenticeship and begin applying for vacancies
- Develop a revision timetable
- Revise
- Make a timetable of all your exams - dates and times and put in a place where you can easily see them.

APR

MAY

May to June

- Revise
- Take exams

JUNE

APPRENTICESHIPS

LONDON BOROUGH OF BARKING AND DAGENHAM COUNCIL APPRENTICESHIPS

Being an apprentice is a great way to start your career and gain a recognised qualification while getting paid.

The London Borough of Barking and Dagenham creates apprenticeship opportunities across the following areas that combine work experience, training and a competitive London Living Wage salary:

- plumbing
- business administration
- construction
- IT
- teaching assistant
- vehicle maintenance
- legal
- health and social care
- hospitality
- human resources
- content producer
- electrician
- leisure management
- digital marketer

Priority will be given to those applicants who live in Barking and Dagenham and care leavers when the minimum criteria for the apprenticeship is met.

If you're looking for an apprenticeship, contact the Job Shops. They will help you:

- find a suitable training provider and employer
- understand your careers options
- create or update your CV
- improve your interview skills
- complete job applications and putting you forward for council apprenticeships
- search for jobs
- providing 'better-off-in-work' calculations and benefit advice

Colleges also offer Apprenticeships.

Please contact one of the locations below to book an appointment and register your interest.

TRAINEESHIPS

If you feel that you're not quite ready for an apprenticeship, you should consider a traineeship. This is a course with work experience that gets you ready for work or an apprenticeship. It can last up to six months.

You can find out more and search for traineeships at www.gov.uk/guidance/traineeships

Colleges also offer Traineeships.

All information is correct at the time of going to print, however, changes may occur. Please check websites for up to date information.
