

A shout out for Tarik in Maths. 'Every lesson 100% effort is placed into his mathematics work. This is reflected in the work he is producing. Keep up the hard work!'

Ms Karim - Maths

Leart- For dedicating himself fully to a challenging task in Science. He just put his head down and got on with it. It was heart-warming to see how persistent he was with the task.

Ms Sheikh

Siam, Makayla, Daimara, Mohammed, Guste and Adlane - your focus, effort and concentration in lessons has been flawless over the last 6 weeks! Keep it up!

Ms Lathwell - English

I am delighted to give a massive shout out to 10Y1 for their hard work, resilience and proactiveness during the double Spanish lesson. This enabled every student to use their full potential in creating an amazing piece of writing about a past holiday. Well done and keep it up!

Ms Livandovschi

I would like to send a couple of shout outs to my year 10 class (science)

The **whole class** worked extremely hard during the lesson, you remained focused and completed all the work regardless of the challenges, a great example of growth mindset and perseverance. I was very proud of all of you.

To **Mohannad and Rebeca** for always exceeding my expectation, working hard and challenge yourself. Keep up the hard work! Miss Melia

# Two shout outs from Mr Rashid

1) Michael Yakubu

2) My 10YEN3 English class and in particular Fayyad, Khadijah, Jordan and Nicole. I have been so impressed with the class' fantastic start to studying Macbeth and their great range of ideas and views on the play. Last week I was in awe of some of your inferences for the poem war photographer. Keep up the great work!
