For their exceptional attitude to learning and for always making such interesting and thoughtful contributions to class discussion. Very often, our lessons feel more like university seminars and it is an absolute pleasure to teach them. Well done!

For consistently revising, asking questions, putting in their 100% effort into all classwork and independent learning set in Biology. They make an effort to research on anything they do not understand and cement the understanding of known topics. Keep up the good work!

Used their **initiative** when their class was left without a teacher and came to find me to clarify where the class should be. They then went and informed their classmates and escorted them to Si.
