**Jesse Matsalou** a shoutout for being the most active library user in the entire school. He has checked out 58 books this term!

**Safwan Mozumder** and **Ruqiya Ali** who have checked out over 50 books this term, and have a wide range of books, including some challenging ones.

**Grace and Sana-** completed an amazing amount of work for me. I gave them 10 sheets of maths work on all types of fractions questions. All questions (over 100 questions) were completed left on my desk for me to mark. And they were all neatly answered and correct. Keep up the good work

**Aleeza 7SP-** well done for having your best maths lesson on today. You showed a big change in engagement and effort in maths today: you managed to get through all the difficult problems set and got to the challenge questions as well and getting them right. Keep up the good work.
