Shout out to....

Tautvydas and Zubair.

I had a severe asthma attack on my way home from work on Wednesday evening - I was on a bus full of people and not one person offered to help me. I got off the bus at the next stop and was on the verge of falling unconscious, when Tautvydas and Zubair were passing and found me. They came to my **aid**, offered me **support** and **watched** over me until I was stable. I truly think I would have fallen unconscious if it was not for their **calming** presence.

I do not have the words to describe how **thankful** I am for the **compassion** they showed me and I think they should be extremely **proud** of themselves.
